

Summer 2023

Dear Grade 8 Parents:

Welcome back to Junior High School Math! My name is Mr. Kabareti and I am joining YDH to be your son's math teacher, this year. I have taught middle school math for several years and hold a Master's Degree in Education from Brooklyn College. I'm excited to have the opportunity to get to know you and your son, am looking forward to a happy and productive school year. It is my hope that everyone will have a positive experience in my classroom, this year.

Students will continue to strengthen their mathematical skills, as they prepare for high school. They will learn to use different mathematical strategies to reach a conclusion. They will recognize, use, and represent algebraic patterns, relations, and functions. Some of the skills being taught in 8th grade will include algebra, geometry, graphs, functions, and transformations.

Homework will be assigned four days per week. There will be a test or quiz, weekly. These are necessary components of a student's learning experience. Google Classroom will inform students and parents with advisories and information about tests and assignments. Please view your son's Google Classroom, nightly, to stay informed and up to date.

Studies show that parental involvement in a child's education is very important. I look forward to that partnership. Thank you in advance for your support, care, and interest in the life of your child at school. Please take every opportunity to encourage your child to maximize his potential.

I hope that we will be in constant communication. If any issue should arise, please feel free to contact me. Call the Yeshiva at 718-258-4441 ext. 17 and leave a message or email me at nathankabareti@gmail.com. I intend to get back to you ASAP, every time.

Once again, welcome back. Let's work together to make this a great year!

Sincerely,

Mr. Kabareti

Math School Supply List

2 – hard-covered notebooks (100 sheets)
2 - two pocket folders
10 pencils
Sharpener (*not electric*)
Eraser
Highlighter
1 package of standard graph paper (8 1/2" X 11")
12" metric and inches ruler
Protractor
Geometry compass
Texas Instruments scientific calculator, model #TI - 30XIIS, which can be bought at Staples or online (at Amazon) for about \$9.88.

Summer 2023

Dear 8th Grade Student,

My name is Mr. Kabareti and I will be joining YDH this year as the middle school math teacher. I am looking forward to getting to know each one of you and am excited to see what we can accomplish together!

Please come to class prepared with all your supplies and books, each day. Reviewing is the key to understanding math. Please do all homework assignments and submit them in a timely manner.

I will always make time for your needs and encourage you to let me know if you need clarification on what we are learning.

I hope you enjoy the rest of your summer,

Mr. Kabareti
