

Summer 2023

Dear Grade 6 Parents:

Welcome to Junior High School Math! My name is Mr. Kabareti and I will be your son's math teacher this year. I have taught middle school math for several years and hold a Master's Degree in Education from Brooklyn College. I'm excited to have the opportunity to get to know you and your son and look forward to a happy and **productive** school year. It is my hope that everyone will have a positive experience in my classroom, this year.

The curriculum area we will focus on in class is aligned with New York State Next Generation Standards. We will continue to use the math textbook "Go Math", which includes an on-line textbook and review. Students will understand the concepts and become proficient in the skills of mathematics. Those skills include the study of number sense and operations, algebra, geometry, measurement, and statistics.

Homework will be assigned four days per week. There will be a test or quiz weekly. These are necessary components of a student's learning experience. Google Classroom will inform students and parents with advisories and information about tests and assignments. Please view your son's Google Classroom, nightly, to stay informed and up to date.

Studies show that parental involvement in a child's education is very important. I look forward to that partnership. Thank you in advance for your support, care, and interest in the life of your child at school. Please take every opportunity to encourage your child to maximize his potential.

I hope that we will be in constant communication. If any issue should arise, please feel free to contact me. Please call the Yeshiva at 718-258-4441 ext.17 and leave a message or email me at nathankabareti@gmail.com. I intend to get back to you ASAP, every time.

Once again, welcome back. Let's work together to make this a great year!

Sincerely,

Mr. Kabareti

2 - hard-covered notebooks (100 sheets)

2 - two pocket folders

10 pencils

Sharpener (*not electric*)

Eraser

High-lighter

1 package of standard graph paper (8 1/2" x 11")

12" metric and inches ruler

Protractor

Laundry bag, pillowcase, or drawstring nylon bag for overflow book storage.

Summer 2023

Dear 6th Grade Student,

My name is Mr. Kabareti and I will be joining YDH this year as the middle school math teacher. I am looking forward to getting to know each one of you and am excited to see what we can accomplish, together!

Please come to class prepared with all your supplies and books each day. Reviewing is the key to understanding math. Please do all homework assignments and return them in a timely manner.

I will always make time for you and encourage you to let me know if you need clarification on what we are learning.

I hope you enjoy the rest of your summer,

Mr. Kabareti
